WINE CELLAR

BY SAPORDIVINO

The Wine Cellar By Sapordivino
is located inside a small medieval tower of the fourteenth century,
on which the Grand Hotel Continental stands.

The cellar has been designed by contrasting modern elements,
like glass and steel, to the ancient stone of the tower,
obtaining an extraordinary and unique cellar.

Over 3,000 bottles, 400 labels, 60 cellars,
they float on the ancient walls through plexiglass cases.

Possibility to have dinners starting from a minimum number of 4 people
to a maximum of 20 people.
