Welcome to the Bar d'Inghilterra

This place has many memories to share.

Originally, the property was built by the Torlonia dynasty with the intent of welcoming their nobility friends.

In 1845 it was converted into an eminent hotel with the name “d’Angleterre” reflecting it’s ever-growing popularity with British visitors and their desire to partake in the Romanticism era of Lord Bryon, John Keats and Percy Shelly to name a few.

Over the course of it 175 years it has seen Monarches, Celebrities, and illustrious writers & sojourn within the walls of this prestigious hotel: Members of the Royal House of Windsor, Hollywood actors

Taylor & Peck and American writers Twain & Hemingway.

To all these we pay tribute and honor with our selection of cocktails and drinks.

We are happy and proud to share both our mixologist experience and our passion to serve you.
